

BioBlitz

Wachusett Mountain
State Reservation

Saturday, July 21

PLEASE JOIN US IN EXPLORING WACHUSETT MOUNTAIN in Princeton and Westminister, MA for a long day of biological discovery. Experts will provide public programs on various taxa throughout the day for the general public while smaller teams focus on documenting as many species in some less traveled parts of Wachusett.

Our Headquarters for the day will be at the Program Room, next to the Superintendent's House at 227 Mountain Rd., Princeton

Please email Scott Smyers at sdsmyers@gmail.com with any questions (possible weather delays) and to register as a volunteer for certain taxa if you have interest in joining smaller teams outside the programs. No need to register to attend hikes. Please dress appropriately and provide your own snacks and drinks. Children are welcome, but must be accompanied by adults. If you must bring a dog, it must be kept on-leash.

Birds 6:00-9:00 AM with Doug Williams, Mass Audubon and Clay Hobart, North County Land Trust

Fungi 10:00 AM-12:00 PM with David Babik, Boston Mycological Club

Plants 12:00-2:00 PM with Robert Bertin, College of the Holy Cross

Insects 2:00-4:00 PM (and evening) with Scott Smyers, Cambridge Entomological Club and Friends of Wachusett Mountain

Mammals 4:00-6:00 PM with Nick Wisniewski, Department of Conservation and Recreation

6:00-7:00 PM Break and Gathering in the Program Room

Amphibians and Reptiles 7:00-9:00 PM (and night) with Scott Smyers, Friends of Wachusett Mountain and Association of Massachusetts Wetland Scientists

NOTE: Sessions may go longer than scheduled above, but participants are free to leave early to meet with other groups.
